All V-Go users must review all training materials provided with the product. If the V-Go user requires further training on the product, they must contact their healthcare professional or contact AMSL Diabetes for further assistance. The warranty conditions for V-Go can be found on our website, and in each product box you receive. In agreement with the Privacy Act 1988 (Cth), the V-Go user's records will be maintained in accordance with the National Privacy Principles. The V-Go user assigns indemnity to AMSL Diabetes from and against all claims of whatsoever nature (to the maximum extent permitted by law) relating (whether directly or indirectly) to the V-Go System. V-Go Patch Pumps are not for resale. Important Risk Information. If regular adjustments or modifications to the basal rate of insulin are required in a 24-hour period, or if the amount of insulin used at meals requires adjustments of less than 2-Unit increments, use of the V-Go Disposable Insulin Delivery Device may result in hypoglycaemia. The following conditions may occur during insulin therapy with V-Go: hypoglycaemia (low blood glucose) or hyperglycaemia (high blood glucose). Other adverse reactions associated with V-Go use include skin irritation from the adhesive pad or infections at the infusion site. V-Go should be removed before any magnetic resonance imaging (MRI) testing. After your initial order, you may order on our website [www.amsldiabetes.com.au](http://www.amsldiabetes.com.au). Prices are valid as of 1st July 2018. Prices on this form are subject to change without notice.
