All Dexcom users must review all training materials provided with the product. If the Dexcom user requires further training on the product, they must contact their healthcare professional or contact AMSL Diabetes for further assistance. If glucose alerts and readings do not match symptoms or expectations, user should obtain a fingerprick for the Dexcom G5 Mobile System. A minimum of two fingerpricks a day are required for calibration. It is the Dexcom user's responsibility to seek appropriate advice when necessary and to use the device as per usage instructions. The warranty conditions for the Dexcom systems can be found on our website, and in each product box you receive. In agreement with the Privacy Act 1988 (Cth), the Dexcom user's records will be maintained in accordance with the National Privacy Principles. The Dexcom user assigns indemnity to AMSL from and against all claims of whatsoever nature (to the maximum extent permitted by law) relating (whether directly or indirectly) to the Dexcom CGM Systems. Dexcom is indicated for use in patients over 2 years old and is not indicated for use in pregnancy or patients on dialysis treatment. Receivers, transmitters and sensors are not for resale. Use of non-approved platforms will invalidate the warranty for the receiver and transmitter. After your initial order, you may order on our website www.amsldiabetes.com.au. Prices are valid as of 14th June 2018. Prices on this form are subject to change without notice.
