

# HOW DOES DEXCOM G6 WORK?

## APPLICATOR

A one-touch applicator easily inserts a small sensor just beneath the skin.

## SENSOR & TRANSMITTER

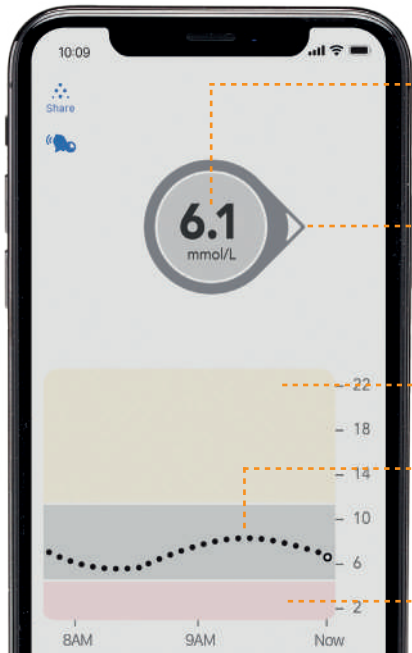

A slim sensor continuously measures glucose levels just beneath the skin and sends data wirelessly to a display device through a transmitter.

## DISPLAY DEVICE

A compatible smart device or a small touchscreen Receiver\* displays real-time glucose readings.

\* Smart device and Receiver not included with Dexcom G6 CGM System. For a list of compatible devices, please visit [dexcom.com/dexcom-international-compatibility](http://dexcom.com/dexcom-international-compatibility)

Continuous Glucose Monitoring System

# MAKE KNOWLEDGE YOUR SUPERPOWER

Always read the label and use only as directed. Read the warnings available on [www.amsldiabetes.com.au/resources](http://www.amsldiabetes.com.au/resources) before purchasing. Consult your healthcare professional to see which products are right for you.

# WHAT IS CONTINUOUS GLUCOSE MONITORING?

Continuous Glucose Monitoring (CGM) is a diabetes management tool that measures glucose levels 24 hours a day using a sensor inserted just under the skin.

The device wirelessly transmits glucose readings every five minutes to a compatible smartphone, smart watch or Receiver.\* It provides you with real-time interstitial glucose readings but can also alert you when your levels are too high or drop too low.

# WHO CAN BENEFIT FROM A CGM SYSTEM?

- Anyone over two years of age with type 1 diabetes can benefit from CGM
- It works whether you are using multiple daily injections (MDI) or an insulin pump.

## Dexcom CGM use has proven to:

- ✓ Lower HbA1c<sup>1,2</sup>
- ✓ Reduce risk of hypoglycaemia<sup>3,4</sup>
- ✓ Increase time spent in range<sup>1,2</sup>
- ✓ Improve quality of life and well-being<sup>5</sup>

\* Smart device and Receiver not included with Dexcom G6 CGM System. For a list of compatible devices, please visit [dexcom.com/dexcom-international-compatibility](https://dexcom.com/dexcom-international-compatibility)

# DEXCOM G6 OFFERS MORE PEACE OF MIND, CONVENIENCE AND FLEXIBILITY THAN EVER BEFORE

## ZERO\* FINGERPRICKS

Manage your diabetes with ZERO\* fingerpricks and no calibrations, even for treatment decisions.

\* If your glucose alerts and readings from the G6 do not match symptoms or expectations, use a blood glucose meter to make diabetes treatment decisions.

## SLIMMER†, WATER RESISTANT‡ DEVICE

A slim, water-resistant sensor that is discreet and easy to wear.

## CUSTOMISABLE ALERTS & ALARMS

Set your range and get notified when you're heading high or low with 2 groups of alert schedules.

## SHARE REAL-TIME DATA

With Dexcom Share, you can share your glucose data with up to 5 followers.<sup>5</sup>

## LONGER-LIFE SENSOR†

Indicated to wear for up to 10 days.

## URGENT LOW SOON ALERT

Sometimes, glucose levels fall quickly. The new Urgent Low Soon alert with Dexcom G6 is designed to provide a 20-minute advance warning ahead of an urgent low.

## OUTSTANDING ACCURACY

Even greater accuracy than our previous generations, offering you reliable results.<sup>6</sup>

## DEXCOM CLARITY

Keep track of your trends with Dexcom CLARITY to better manage your diabetes.

† Compared to the Dexcom G5 Mobile CGM System.

‡ The Dexcom G6 Sensor and Transmitter are water resistant and may be submerged under 2.4 metres of water for up to 24 hours without failure when properly installed.

§ Do not make treatment decisions based upon Share and Follow readings. Always confirm with your compatible smart device or Receiver. Internet connectivity required to access Dexcom Follow.
